

HERITAGE FABRICATIONS OTTOSTUMM W75TB

Heritage
FABRICATIONS

The new FerroFinestra W75 TB system, which has been presented to the public for the first time at Bau 2019 in Munich, is the latest development from Ottostumm. The slim lines and its visible and tactile surface structures have a strong emotional impact on the viewer. The system, consisting of 25 profile geometries, represents the most technologically advanced thermally insulated steel window system in our portfolio. The profile depth of 75 mm allows to accommodate highly energy-efficient insulating glazing up to 52 mm and the fiberglass-reinforced polyamide insulator guarantees excellent thermal insulation, making the system ideal for projects in climatically demanding regions, where energy-saving regulations are extremely high.

In addition to classic strip galvanizing, we also offer bright steel (not galvanized), cor-ten steel and stainless steel (1.4404) versions. The assortment is rounded off by a wide range of exclusive fittings and accessories reproduced from original designs of the modern age. This allows the realization of all common opening types (inside and outside opening) for windows and doors, including tilt and turn windows. The system is available with a flush or overlapping design.

AVAILABLE OPERATIONS

Double leaf side-hung window
Outward Opening

Double leaf door
Inward Opening

FEATURES

- 1.5 mm tubular profiles in bright steel, galvanized steel, corten steel and stainless steel 1.4404
- Mechanically fixed rebate gaskets
- Very slender flush or overlapping sightlines
- Profiles accommodate high-performance glazing
- High performance thermal barrier
- Wide range of square and angular glazing beads
- Visible and concealed hardware
- Fixed glazing, single-sash and double-sash, side-hung and bottom-hung windows opening inwards and outwards, top-hung, tilt and turn windows, vertical and horizontal pivoting windows, window and doors opening inwards and outwards
- Fixed glazing, single-sash and double-sash, side-hung and bottom-hung windows opening inwards and outwards, top-hung, vertical and horizontal pivoting windows, window and doors opening inwards and outwards

Heritage

FABRICATIONS

Heritage Fabrications was established with the sole mission to provide fully customizable, and energy efficient windows. We are a dedicated team of professionals located on the Gold Coast of Connecticut. Visit us and explore Heritage's unique combination of European innovation, efficiency, engineering and cutting-edge design. All of our windows, doors and accessory products are built with uncompromising precision and are fully guaranteed to last. Employing state-of-the-art production techniques and materials, including bronze, steel and stainless steel, we offer an infinite amount of options, sizes, and glazing that are suitable for both modern, traditional, and historic applications.

Our customers range from homeowners, architects, designers, construction firms, developers and private institutions. We work with our clients individually to ensure the ultimate in quality, customer satisfaction and proper installation for all projects.

We invite you to discover Heritage Fabrications and see how we can add value and transform your project.
