

HERITAGE FABRICATIONS OTTOSTUMM W40

Heritage
FABRICATIONS

The W40 suite proposed by Heritage Fabrications is not only used in the field of restoration, but it's also highly acclaimed in contemporary architecture for its elegant and compact sightlines, ensuring safety and comfort thanks to its excellent thermal and acoustic performance. Despite the depth of this system is 42 respectively 47 mm, it is considered "heavy duty". This allows making large window and door constructions.

Heritage

FABRICATIONS

Heritage Fabrications was established with the sole mission to provide fully customizable, and energy efficient windows. We are a dedicated team of professionals located on the Gold Coast of Connecticut. Visit us and explore Heritage's unique combination of European innovation, efficiency, engineering and cutting-edge design. All of our windows, doors and accessory products are built with uncompromising precision and are fully guaranteed to last. Employing state-of-the-art production techniques and materials, including bronze, steel and stainless steel, we offer an infinite amount of options, sizes, and glazing that are suitable for both modern, traditional, and historic applications.

Our customers range from homeowners, architects, designers, construction firms, developers and private institutions. We work with our clients individually to ensure the ultimate in quality, customer satisfaction and proper installation for all projects.

We invite you to discover Heritage Fabrications and see how we can add value and transform your project.
