

BRONZE CATALOG

Bronze has been known to men since the Bronze Age over 5,000 years ago.

It was used to make weapons and armor and helmets.

The Romans were the first ones to use it in cladding of doors, but it wasn't until Middle Ages that bronze became widely used in architectural applications. Bronze doors dating back to the 15th century are still around which only demonstrates durability, resistance and strength of the material.

Experience this truly remarkable product that is guaranteed to last for centuries with Heritage Fabrications.
